ATARA NOVA

Music of the future ancesSTAR

FESTIVAL PORTRAIT / 2026

The future *ancesSTAR.*

Atara Nova makes ceremonial music you can move to. Shamanic instruments and ancient chants sit inside electronic beats, hip hop flows and pop hooks.

She calls the live show a *Prayerformance*: a set held with sacred intention, built to work as collective medicine for the room. Based between Los Angeles and New York, she treats every song and every stage as a gift to the generations that come next.
